

At the Pain Society of Oregon, our purpose is:

- To promote the highest standards of professional competence and ethics in the treatment of pain disorders.
- To provide for the continuing education of the members.
- To promote working relationships among pain treatment disciplines.
- To represent the interests of pain treatment within the larger health community.
- To advocate competent pain treatment for the public.
- To improve members knowledge of and use of community pain treatment resources and methods.

We are a proud member of the Alliance of State Pain Initiatives
